Katy Williams, B2H	X	Gaby Swisher																																																															
Amy Scholze, Project Coordinator	X	Dustin Zimmerman (OHA)																																																															
Julie Jacobsen, Exec Assistant																																																																	
Welcome and intros	<p>The CAC and Board members introduce themselves and share thoughts on an icebreaker question “what subject do you wish was taught in school, but isn’t?”</p>																																																																
Bridges to Health Program Evaluation	<p>Ronda Zakocs from Insight for Action, Jenny Anglin, and Katy Williams present the Bridges to Health program evaluation findings.</p> <p>Information was gathered through:</p> <ul style="list-style-type: none"> • analysis of deidentified ActivateCare demographics data on 1,543 clients • client needs (pathways) started and completed • English and Spanish survey of 95 clients who were enrolled for at least 12 months, received at least one client incidental, or had 6 or more contacts with their CHW • Dollar amounts allocated to client incidentals and contracted agencies • Deidentified PacificSource member data on health care use 36 months before and after Bridges to Health program enrollment. • Theme analysis of interviews of 16 representatives from 8 partner agencies • Theme analysis of 4 focus groups <ul style="list-style-type: none"> ○ 2 groups of 13 CHWs employed by partner agencies ○ 2 groups of 8 behavioral health providers employed by 7 partner agencies 																																																																

	<p>Katy Williams and other CHWs on the call answered questions and provided context for Board and CAC members who had questions about the data presented. Additionally, CHWs also shared their personal experiences being a CHW and the positive impact it has on both the community and their own feelings of self-worth and esteem.</p> <p>Overall, the data presented showed the positive impact Bridges to Health has on its clients and the community. Clients reported feeling more empowered to engage in healthcare services, better overall quality of life, and felt positively about their needs being met. Health care utilization data shows that clients used care more appropriately: a statistically significant decrease in emergency room visits, inpatient days, and inpatient admissions; and a statistically significant increase in dental and behavioral health visits.</p>
SHARE Initiative final funding decision	The CAC excused the CHWs and Board members for consensus on the remaining \$25,000 SHARE initiative funding..
Next CAC Meetings	<p>October 23rd 3:00 – 5:00 CAC All Members– via Zoom</p> <p>November 28th 3:00 – 5:00 CAC Voting Members Only</p>
