

# Bridges to Health Pathways

Bridges to Health Pathways is a collaborative approach that coordinates, tracks and measures both the process and the resources for Community Care Coordination. Pathways ties payments to milestones that improve client's health and well-being.

## Program Goals:

1. Empower community members most in need to improve their overall health and wellbeing
  2. Improve access to services and resources by addressing disparities
  3. Increase collaboration of services in and out of healthcare
- Ability to address the needs of the **HOUSEHOLD**
  - Engage clients where they are, "no wrong door" approach
  - Limit duplication of services
  - Build on community strengths and collaboration
  - Maintain a standard process regardless of agency (CLARA software)
  - Support data-driven decision making

Community Care Coordinators (CCC's) employed by Community Care Agencies (clinics, health departments, social service agencies) help coordinate needed services for clients & their households. Agencies contract with the HUB to get paid when evidence-based outcomes are met.

- CORE PATHWAYS (Needs)**
- Behavioral Health
  - Developmental Screening
  - Developmental Referral
  - Education
  - Family Planning
  - Food
  - Immunization
  - Pregnancy
  - Postpartum
  - Employment
  - Health Insurance
  - Housing
  - Medical Home
  - Medical Referral
  - Medication
  - Tobacco Cessation
  - Social Service Referral (transportation, debt management, utility assistance, legal, documentation, etc.)

Target Population:  
**HOUSING CHALLENGED**

Shared Technology:  
**clara**  
By Vistalogic

- ✓ Original grant funding: Meyer Memorial Trust, Oregon Community Foundation, PacificSource Foundation, Providence CTC, Pacific Source CHE grant, PacificSource Columbia Gorge CCO
- ✓ Scope includes pathways designed to meet cross sector metrics (health care, early learning, education, public health)
- ✓ "Housing Challenged" is the criteria to get enrolled (doubling up, transportation concerns, inadequate square footage, struggling to cover rent, at risk of losing home, unsafe housing situation, homeless, etc.)
