Red/Green is only for Incentive measures with N/D data. ■ Green: "Meets or Exceeds" the 2016 Improvement Target or Benchmark ■ Red: "Does Not Meet" the 2016 Improvement Target or Benchmark

¹ Lower rates are better

² Colorectal Cancer Screening and Prenatal Care are based on CCO chart review on an annual basis, therefore the rolling rates are not available.

³ Denominator based on March 2016 enrollment; Numerator based on tier counts. Tier Counts - Tier One: 0; Tier Two: 0; Tier Three: 12,581.

⁴ There are no filter-specific targets for the CCOs once filters are applied; the targets remain CCO level. Targets only displayed for incentive measures when filtered by one CCO. If there is no target for an incentive measure, benchmark is displayed.

⁵ EHR adoption rates may be greater than 100% due to the adjustment factor methodology. Rates greater than 100% will be capped at 100% for any public reporting on this measure.
